## F O R E W O R D

The prices tabulated in this summary were taken from the Boston Ornamental Crops Report which is published Monday, Wednesday, and Friday by the Federal-State Market News Service. Massachusetts Department of Food & Agriculture cooperating with the U. S. Department of Agriculture, Agricultural Marketing Service.

Quotations contained represent the general market prices received on Wednesday of all major commodities and such minor commodities that are believed to be of interest. The most consistent areas of supply, varieties, grades and sizes of generally good merchantable quality and condition are shown for each commodity.

In these condensed tables, the wholesale market prices shown are the lows and highs of the general range of the prices quoted Wednesday of each week. Where a "mostly" price was reported this was used instead of the general range. F.O.B. prices are taken each Tuesday. No prices were reported February 8, 1978 since Massachusetts was declared a state of emergency due to blizzard conditions.
